LEARNING OBJECTIVES:

- Defining an API Starting Material
- Starting materials in the CEP application procedure
- Re-defining regulatory starting materials and how to deal with it
- Risk assessment and criticality analyses
- What is different for Generics?
- Handling post approval changes
- Pre-starting material information
- Appropriate controls for Starting Materials manufacturers

Workshops

- API synthesis: How to define suitable Starting Materials
- How to defend the choice of the Starting Material in the submission

SPEAKERS:

Marieke van Dalen
Aspen Oss, The Netherlands

Hiltrud Horn
Horn Pharmaceutical Consulting, Germany

Gerd Jilge
Boehringer Ingelheim, Germany

Corina Nachtsheim
Quality Assessor, Germany

Matthias Schneider
BASF, Germany

Francois Vandeweyer

23 – 24 May 2019, Barcelona, Spain

This education course is recognised for the ECA GMP Certification Programme “Certified Regulatory Affairs Manager”. Please find details at www.gmp-certification.eu
Objectives

During this course all relevant aspects regarding API regulatory starting materials will be discussed. You will learn

- What has to be considered when a starting materials have to be defined
- How risk assessment can be applied
- Which aspects have to be taken into account when applying for a CEP
- How quality agreements should look like
- How post approval changes can be handled and
- How impurities in starting materials can be controlled

Furthermore you will have the opportunity to participate in one of two parallel workshops about

- How to define suitable starting materials in API synthesis
- How to defend the choice of the starting material in the submission

Background

According to EU GMP Guide Part II (ICH Q7) an API starting material is a raw material, an intermediate, or an API that is used in the production of an API and is incorporated as a significant structural fragment into the structure of the final API. From this point on, appropriate GMP has to be applied to the API manufacturing steps.

In a marketing authorisation application the applicant has to describe in an ASMF the API manufacturing process. The “API regulatory starting material” has to be clearly designated and the rationale for the point at which the production of the API begins has to be documented. The same applies for a CEP application procedure.

In the last few years assessors have been more and more challenging the proposed regulatory starting materials. E.g. the definition of a starting material has been one of the top deficiencies in CEP applications. This is partly due to the fact that companies tend to describe shorter synthetic routes starting from complex starting materials. Moreover changes of critical quality attributes and the request from the authorities to re-define the starting material can create difficult situations regarding additional efforts and significant delays in the application process.

Target Audience

This course is designed for all persons involved in the manufacture of APIs. Furthermore, the seminar will be of interest to personnel from quality assurance, regulatory affairs both from API and pharmaceutical companies and to contract manufacturers.

Programme

How to define API Regulatory Starting Materials: What do the guidelines tell us?

- API Regulatory Starting Materials – overview of guidelines
- Definition according to the guidelines
- Global guidelines (ICH Q7 and Q11)
- US, EU and Japan guidance
- How to use the term “significant structural fragment”
- Distinguishing starting materials from raw materials, reagents and solvent
- Selection of an appropriate Starting Material
- Starting Material specification

API Regulatory Starting Materials – Challenges and practical implications for a submission

- How to use the elements of the guidelines in practice
- Is a global approach the best way forward?
- What is the level of detail to be provided?
- What are the consequences of the choice?

API Regulatory Starting Materials – What is different for Generics?

- One file fits all?
- Redefinition of the RSM; practical aspects
- Practical experiences

Starting Materials and the CEP application procedure

- Regulatory background
- Scope of the CEP procedure
- Provisions of the Guideline PA/PH/CEP (14) 06 “Use of a CEP to describe a starting material in an application for another CEP”
- Important points to be considered for defining an API starting materials

How to handle post-approval changes

- Changes to the pre-starting material information
- Re-definition of the starting material: possible or not
- Handling changes/variations when multiple stakeholders are involved

From starting materials to APIs: risk assessment and criticality analyses

- Criticality analysis methods (HAZOP, FMEA etc)
- Critical quality attributes (CQA) and critical process steps (CPS)
- Linking CQA and synthesis steps
- Critical impurities
- Critical raw materials
- Process criticality analysis; example

Workshops

- API synthesis: How to define suitable Starting Materials
- How to defend the choice of the Starting Material in the submission
Appropriate controls for Starting Materials manufacturers

- How to control impurities in a starting material
- Analytical techniques
- Optimisation of chromatographic methods
- Downstream experiments
- Validation of analytical procedures
- Qualification of Starting Materials

APIC’s position on Starting Materials

- Definition of the SM
- Risk management
- Qualification of the SM supplier
- Pre-SM information
- Handling changes/variations

Speakers

Dr. Corina Nachtsheim  
**Quality Assessor, Germany**  
Dr Nachtsheim studied chemistry at the University of Cologne and received a Ph.D. (Dr. rer. nat.) in pharmaceutical chemistry at the University of Bonn. She is working as a quality assessor at the German Federal Institute for Drugs and Medical Devices since Jan. 2001. Since Nov. 2007, she is an external expert in the framework of the certification procedure of the EDQM in Strasbourg. She became a member of the chemical Technical Advisory Board (EDQM) in Nov. 2011 and is currently chairperson.

Matthias Schneider  
**BASF, Germany**  
Matthias Schneider is Regulatory Affairs Manager for APIs and Excipients at BASF, Germany. Before he joined BASF, he was Regulatory Affairs Manager for APIs and Drug Products at Hoffmann-La Roche in Switzerland for 4 years. Before that he was employed by Amgen and worked in the department of Research and Development of lead structures for 7 years.

Francois Vandeweyer  
**VDWcGMP Consultancy, Belgium**  
Francois Vandeweyer joined Janssen Pharmaceutica (part of Johnson & Johnson) in 1981 in chemical development. Until 1995 increasing responsibilities within the organisation mainly in the Quality Control Unit. Starting from 1995 he joined the QA department. Several Senior Manager responsibilities. 2005 Sr Manager GMP Compliance Chemical Operations Belgium (sites Geel – Olen – Beerse). 2009 Director Global Compliance EMEA/AP for Johnson & Johnson. Since May 2019 he is a freelance consultant.

Social Event

In the evening of the first day, you are cordially invited to a social event. This is an excellent opportunity to share your experiences with colleagues from other companies in a relaxed atmosphere.

Accommodation
CONCEPT has reserved a limited number of rooms in the conference hotel. You will receive a room reservation form when you have registered for the course. Reservation should be made directly with the hotel. Early reservation is recommended.

Privacy Policy: By registering for this event, I accept the processing of my Personal Data. Concept Heidelberg will use my data for the processing of this order, for which they declare to agree that my personal data is stored and processed. Concept Heidelberg will only send me information in relation with this order or similar ones. My personal data will not be disclosed to third parties (see also the privacy policy at http://www.gmp-compliance.org/eca/privacy.html). Note that I can ask for the modification, correction or deletion of my data at any time via the contact form on this website.

German law shall apply. Court of jurisdiction is Heidelberg.

General terms and conditions:
If you cannot attend the conference you have two options:
1. We are happy to welcome a substitute colleague at any time.
2. If you have to cancel entirely we must charge the following processing fees: Cancellation:
   - until 2 weeks prior to the conference 10 %
   - until 1 week prior to the conference 50 %
   - within 1 week prior to the conference 100 %

CONCEPT HEIDELBERG reserves the right to change the materials, instructors, or speakers without notice or to cancel an event. If the event must be cancelled, registrants will be notified as soon as possible and will receive a full refund of fees paid. CONCEPT HEIDELBERG will not be responsible for any refund of airfare penalties or other costs incurred due to a cancellation.

Terms of payment: Payable without deductions within 10 days after receipt of invoice.

Important: This is a binding registration and all fees are due in case of cancellation or non-appearance. If you cannot take part, you have to inform us in writing. The cancellation fee will then be calculated according to the point of time at which we receive your message. In case you do not appear at the event without having informed us, you will have to pay the full registration fee, even if you have not made the payment yet. Only after we have received your payment, you are entitled to participate in the conference (except of payment will not be confirmed!)

All fees paid are non-refundable. (As of January 2012)
