Background

Annex 1 "Manufacture of sterile medicinal products" of the EU GMP Guide is currently being revised. A first draft of the revised version was published in 2017 and released for public comment, resulting in thousands of comments. A revised version was published in February 2020 and is open for limited comment by selected stakeholders.

Educational Objectives

This webinar will inform you about the current status of the revision with regard to the significantly expanded topic of contamination control (CCS Contamination Control Strategy). The current draft emphasizes in many cases that the networking and coordination of the individual measures, from cleaning and disinfection to personnel and clothing to appropriate monitoring, is crucial for success and they must result in a coherent and coordinated overall concept.

Accordingly, this webinar covers the core requirements:

- Environment
- Personnel
- Process Simulation/Media Fill

Target Audience

This Webinar is of interest to professionals from pharmaceutical and biopharmaceutical manufacturers, authorities and suppliers with responsibilities in

- Quality Assurance and Quality Control
 - Inspection and Auditing
- or who are involved in
- Sterile/Aseptic Manufacturing
 - Contamination Control and Monitoring
 - Process Simulation/Media Fill
